

Dear Students,

In order to complete the requirements for BAN 4998 (Module portfolio for the North American Studies Specialization Program), you are required to submit in English a short report on your achievements in one of the North American Studies courses you have completed at the Institute of English Studies.

The document should contain your reflections on the course with special emphasis on

1. the most important work/historical eras/subjects discussed during the course,
2. 2 pieces of criticism/secondary literature which you found particularly useful,
3. the ideas you developed during the course (i.e. what did you get to know about the world and yourself?), and
4. your reflection on how these ideas may be used in your future work, especially your final thesis.

Please note that the marks you received for your chosen course WILL NOT influence your mark for BAN 4998.

Please also note that your mark will only be entered in the Neptun system if you have completed the pre-requisite courses as specified in your programme of study (mintatanterv).

Your report should be between 4,000 and 5,000 characters long.

The deadline for submitting your portfolio is 16:00 on the Wednesday of the last week

of the study period. Please leave it with one of the secretaries of the Institute of English Studies (room 210).

Should you have any questions, please contact the Head of Department, Dr. Miklós Péti, or the organizer of the program, Dr. Katalin G. Kállay

Best wishes,

Department of English Literatures and Cultures

Valid as of September 2016
