

Name: Ádám György Psychophysiology Research Group

Established: KRE 2022 (origin: ELTE 2004)

Brief description:

Focal points of the research group are interoception in the broader sense, body awareness, the placebo and nocebo phenomenon, and mind-body interventions.

Head of Research Group:

Prof. Dr. Köteles Ferenc, PhD, BSc, Professor, KRE Faculty of Humanities and Social Sciences
email address: koteles.ferenc.gabor@kre.hu

Members:

Prof. Dr. Bárdos György, PhD, BSc, Emeritus professor, ELTE PPK

Dömötör Zsuzsanna, PhD, Senior lecturer, ELTE PPK

Ferentzi Eszter, PhD, Senior lecturer, ELTE PPK

Gál Vera, Research assistant, ELTE PPK

Gátiné Dr. Drozdovszky Orsolya, PhD, Senior lecturer, ELTE PPK

Horváth Áron, Assistant lecturer, KRE BTK

Koncz Ádám, PhD, Senior lecturer, ELTE PPK

Körmendi János, Assistant lecturer, ELTE PPK

Szemerszky Renáta, PhD, Professor (Assistant), KRE Faculty of Humanities and Social Sciences

Vig Luca, PhD Research student, ELTE PDI
